Q. 3. **Do you have any suggestions on how to improve this session? (continued)**

- The flow and manner were (sic) ideal. Maintain it!
- Well facilitated but need to perhaps focus on one section at a time
- It was excellent
- I'll have to think about this one
- Use the mic so all can hear better to answer questions
- More control
- More time. Smaller, more quiet place for discussion and reflection on the topics
- Shorter but more younger persons. Also, St. Joseph's hold Cursillos
- Great job Leanne!
- Great facilitator!
- Just keep it going and keep positive
- Difficult to come up with a format that is the most effective
- Well organized and conducted (?) well and good participation by all
- Hard to hear each other sitting around a long table. How to bring people back to the Church, especially young people.
- There should have been more consideration made for those many of us who are lone (sic), spouses have died, cannot participate in "Family" gatherings. Have daytime activities for us. Thank you.
- Good mix of dialogue and discussion as well as presentation. What is the ask? What do you want people to do? Idea that they leave will? What is the call to action? – maybe highlight (encourage that)
- Let group know there is not a plan yet. (Some of our group thought it was an exercise in futility)
- Most at one table thought it was a session like when Archbishop Mancini came-- they were unprepared to do the format required. So, more instruction about the meeting structure should have been talked about at Church, online, etc.
